

## Space Between Us

VHS Collection

I know my fate, I live for the changes  
Too many sins, and occasional strangers  
Why do I keep things around  
Why hold myself down  
I try to keep my head up but you're all I can think of right now

I want to feel no space between us  
I want to move inside your heart  
I've been searching for this place for too long, too long  
I want to feel no space between us

Pull you my way, we run from the danger  
Eyes won't betray, release me from anger  
Why do I keep things around  
Why hold myself down  
I try to keep my head up but you're all I can think of right now

I want to feel no space between us  
I want to move inside your heart  
I've been searching for this place for too long, too long  
I want to feel no space between us

Over and over  
Over and over  
Over and over  
Over and over  
I've been searching for this place for too long, too long  
I want to feel no space between us
