

# With Or Without Me

VHS Collection

Were a heartbeat form a flat line  
And there's no time to contemplate  
Your the long view of a lifetime  
It's a dream that will never fade

So come on come on  
Come on come on  
If were apart we'll drown in the dark  
I need you to know need you to know  
I've been searching blind give me a sign so

We can find a way out  
You could surround me  
I just need to know now  
If your with or without me  
Now I'm on my knees and it's strange to see  
That it's you I never needed more  
Won't you answer me cuz I'm begging please  
Are you with or without me

We're a high beam through a hard time  
Can we hold on another day  
But if I go left and you turn right  
We'll die trying to leave the maze

So come on come on  
Come on come on  
If we divide we'll never survive  
I need you to know  
Need you to know  
I've been searching blind give me a sign so

We can find a way out  
You could surround me  
I just need to know now  
If your with or without me  
Now I'm on my knees and it's strange to see  
That it's you I never needed more  
Won't you answer me cuz I'm begging please  
Are you with or without me

I swear to god you took the breath out of me  
Ya  
Say that your with me  
All I wanted was to take you with me  
Ya  
Say that your with me  
And what you got, baby you got me  
Say that your with me

We can find a way out  
You could surround me  
I just need to know now  
If your with or without me  
Now I'm on my knees and it's strange to see  
That it's you I never needed more  
Won't you answer me cuz I'm begging please

Are you with or without me
