Breaking Bones

VHS or Beta

Die, Dying means together
And trust is falling apart
And once, once we were together
And time, and time and again (time and aah)

??? Stand, stand inside the weather ???
Rebuild, rebuild with our hands
Now, now it was forever
Inside, inside of our heads

I have a hard time judging what's real
I'm breaking bones just to prove I can feel
The simple fact is that I'm fading into silence
And I scream to hear the memories of all we used to be
I've said too much
I'm out of touch
??? Do not enough for your animal ???

Fear, fear of being swallowed
Is sign, sign of a ghost ???
Believe, believe in something bigger
Believe, believe what you should
(Believe what's there)

This time when we were young and love was in our hearts
When we could sing the songs and every word meant something mor
e
And more, it slips away
Each second, every day
Until you can't remember my name

I have a hard time judging what's real
I'm breaking bones just to prove I can feel
The simple fact is that I'm fading into silence
And I scream to hear the memories of all we used to be
I've said too much
I'm out of touch
??? Do not enough for your animal ???
