

Falling Down

Vian Izak

Everything changes
Everything changes
So please don't change, love

Though the crowd will make their faces
The crowd will tear you to pieces
So stay with me, love

Every time I try to stay the same
My feet move on, my hands pull me away
Come dance with me, love

Oh, this is how we learn
By falling down
Falling down

Oh, this is how we learn
By falling down
Falling down

Oh, this is how we learn
By falling down
Falling down

Oh, this is how we learn
By falling down
Falling down
