

# Utopia

Vian Izak

I want to run  
From this world's falling down  
Plan my escape  
Wait 'til they look away  
Like a kid's balloon floating  
I'm up in the clouds

Now, there's crying and screaming  
But I am free now

Your utopia  
La, la, la, la  
Isn't enough  
It's built without love  
Your utopia  
La, la, la, la  
Isn't enough  
It's built without love

I  
Give a sigh  
When I hear their big lies  
Their salvation comes  
At the beat of war drums  
Like a jester, I'm laughing  
They all look like clowns  
But inside, I'm still singing  
They won't hold me down

Your utopia  
La, la, la, la  
Isn't enough  
It's built without love  
Your utopia  
La, la, la, la  
Isn't enough  
It's built without love
