Vibe Chemistry

Hide, the storm starts to fade
The sky get's more blue as it goes away
The sound of drops slippin' on the leaves
They run a race in which the dumber leave

They think they're escaping the clouds
The truth is they're just falling down
Gravity, I'm falling to
Tryin' to run away while I'm falling through

I'm fallin' down
I'm gonna hit the ground
I'm fallin' down
I'm gonna hit the ground
Gravity, falling to
Tryna to run away while I'm falling through
Gravity, falling to
Tryna to run away while I'm falling through
I'm fallin' down
I'm gonna hit the ground
I'm fallin' down
I'm gonna hit the ground

(This made of zero gravity [?])

I'm fallin' down
I'm gonna hit the ground
I'm fallin' down
I'm gonna hit the ground
I'm fallin' down
I'm gonna hit the ground
I'm fallin' down
I'm gonna hit the ground

I'm fallin' down
I'm gonna hit the ground
I'm fallin' down
I'm gonna hit the ground
Gravity, falling to
Tryna to run away while I'm falling through
Gravity, falling to
Tryna to run away while I'm falling through
I'm fallin' down
I'm gonna hit the ground
I'm fallin' down
I'm gonna hit the ground
