

Something Different

Vibe Chemistry

Holding on, the night is long
But I still hear the sound
Over time it will suffice
Until you come around

I tried again but I can't find it
Somewhere in the distance
Time time again I fight it
But I'm feeling something different

I've never felt this love before
I'm feeling something different
I've never known a love like yours
Ain't nobody else like this
I've never felt this love before
I'm feeling something different
I've never known a love like yours
I'm proud to say she's mine

Hold up
Keep it cool, I don't wanna see the heat rise
All caught up
Now I'm tripping, grass stains on my Levis

Tried again, I can't find it
Time and time again I fight it oh

I've never felt this love before
I'm feeling something different
I've never known a love like yours
Ain't nobody else like this
I've never felt this love before
I'm feeling something different
I've never known a love like yours
I'm proud to say she's mine

I, I feel something different
Ooh something different

Tried again but I can't find it
Somewhere in the distance
Time time again I fight it
But I'm feeling something different

I've never felt this love before
I'm feeling something different
I've never known a love like yours
Ain't nobody else like this
I've never felt this love before
I'm feeling something different
I've never known a love like yours
I'm proud to say she's mine
