

Take Me Home

Vibe Chemistry

I have been waiting all my days
For the sun in the sky and an end to the driving rain
I've been waiting
For an end to the trouble and a whole lot of struggle and strife

Somebody just take me
Take me home baby
Take me where a man belong
Take me
Take me where a man belong
Take me home baby
Take me where a man belong
Take me
Take me where a man belong

It's been a long, long time, ooh
Take me home baby
Long, long time
A long, long time

Somebody just take me
Take me home baby
Take me where a man belong
Take me
Take me where a man belong
Take me home baby
Take me where a man belong
Take me
Take me where a man belong

I've been waiting
For an end to the trouble and a whole lot of struggle and strife

Somebody just take me
Take me home baby
Take me where a man belong
Take me
Take me where a man belong
Take me home baby
Take me where a man belong
Take me
Take me where a man belong

Oh, where a man belong
