

The Zone

Vibe Chemistry

Weight upon my shoulders
But I'm stuck in the zone
I got so much on my mind
But I'm loving the tone
The music might stop
But I ain't going home
I got my middle finger up (yeah)
When I'm dancing alone

It's the one-two stepper, hot like pepper
[?] my better whatever the weather
I'm ready whenever, fly like feather
I just wanna, I just wanna stack this cheddar
Dread I can't wait no more
[?] I can't take no more
Hit a melody and I [?]
Tell me what you're waiting for

Weight upon my shoulders
But I'm stuck in the zone
I got so much on my mind
But I'm loving the tone
The music might stop
But I ain't going home
I got my middle finger up
When I'm dancing alone

So many wanna try, come and be the guy
Set the level too high, never gonna fly
I'm up in the sky, they [?]
Things I do, run rings around you
Tell a man stop, listen
Big fight chemistry, force an admission
True say yeah [?]
Them man I wash like dish

Weight upon my shoulders
But I'm stuck in the zone
I got so much on my mind
But I'm loving the tone
The music might stop
But I ain't going home
I got my middle finger up
When I'm dancing alone

Four to the three two one
[?] Forbes gonna get this done
Four to the three two one
[?] Forbes gonna get this, get this done
Four to the three two one
[?] Forbes gonna get this done
Four to the three two one
[?] Forbes gonna get this, get this done

Weight upon my shoulders
But I'm stuck in the zone
I got so much on my mind

But I'm loving the tone
The music might stop
But I ain't going home
I got my middle finger up
When I'm dancing alone
