

# Independence Day

Vic Chesnutt

Future stepped into by field and turned it into an empire  
Forefathers where are you now ?  
Your dust is settling on my furniture  
I stepped out of a cloud and the ditch is close  
I mean the ditch is closing in.  
Hemingway did your fat little self justice  
So here's to you you articulate dead fisherman  
What if I said I love you and need your guidance to help me through the obstacles ?  
Would you say I am too wordy and then would you laugh ?  
What if I said I'm under the glass untouchable as the document itself ?  
Would you say OK and that you never even considered me ?  
Independence day, I never knew it would be so symbolic.
