

Alone Wit U

Vic Mensa

Staring at you naked, what a view
Send me dirty pictures out the blue
You know that I've been waitin' too long to be alone with you
Ass real ain't no fakin', wine glass chilled on vacation, sunshine meditation
You know that I've been waitin' too long to be alone with you
(All alone)
I'm tired of being lonely
(Alone)
You know that I've been waitin' too long

Seven double oh P.M. slide through in an i8 BM with the seats trimmed
White Sox hat low brim
In a hoodie and wheat Tims
She most def got a booty so fat, you could see it from the front
No gym, waste so slim, she a CEO don't need no man, she got her own M's
Just some affection, [?] in the background
Just ran the weed, I got the drinks you need and we don't wear protection
Let me kill her like Red Room
From the bathroom to the bedroom
Lay the towel down on that mattress in the mountains and you splashin' I'm just-

Staring at you naked, what a view
Send me dirty pictures out the blue
You know that I've been waitin' too long to be alone with you
Ass real ain't no fakin', wine glass chilled on vacation, sunshine meditation
You know that I've been waitin' too long to be alone with you

Well, it be like P-I-M-P she's so friendly
Pretty eyes, thick thighs in the back of my Bentley
I'm a gentleman but don't tempt me
Shorty got a brother with a bag
Now she wanna go and show her ass
So, I gotta go and get a mag
Strap on, let a brotha go ahead break your backbone
I'ma hit it while you talkin' on your iPhone
Send a pic to [?] like this song
Hit it good, it's the za and I'm gone
Sex start with a little Luther
Speed it up with a little [?]
Get it off with Charlie Wilson
Make love to a little gal
She is extravagant
Baby girl lookin' good but she heaven sent (Heaven sent)
And I got her in the phone lookin' marvelous
Pardon us, I touch her in so many areas, she know the vibe
Even when I touch her, she open and close her eyes
And then I got her face in the middle with a pillow while I'm lickin' on her thighs
Surprise, surprise, surprise
I got her picture in my phone, she said, "remember me"
And I liked everyone, so she sent an extra three
(Ugh)
(Ugh)
(Ugh)

(Ugh)

(Ugh)
