

STRAWBERRY LOUIS VUITTON

Vic Mensa

Drop top I got a date with the sunrise
I might just let you ride if you act right
Solid, gold rollie no pyrite
24 karat
Beautiful in the street lights
Strawberry Louis Vuitton
Parisian nights in the moon
Ooh, how you speak with your eyes
Money and the fame, ay
It goes quick as it came, ay
They hate you then they love you
They love you then they hate you again

Voulez-vous coucher you sweet like shea butter tu avec moi
Sweet like ala-mode or crème brûlée, you sweet like Häagen-Dazs
Sweet like Baby Bash and Frankie J, Suga that's way too fly
Judging by the way your momma look, I bet you stay this fine
The way your DNA designed
Let's watch live jazz, Cognac neat
You on my back seat, so I know you digging me, Black Street
East Atlanta girl, I need a lick of that Georgia peach, uh
Forgive me if I'm overly forward but I'm like Mowgli for ya
I want to learn from the pussy
My learning curve accelerates when your curves up against me
Love is a house in my home
And I treat you sweeter than Stockholm
We should be in that beamer E30 with the top gone

Drop top I got a date with the sunrise
I might just let you ride if you act right
Solid, gold rollie no pyrite
24 karat
Beautiful in the street lights
Strawberry Louis Vuitton
Parisian nights in the moon
Ooh, how you speak with your eyes
Money and the fame, ay
It goes quick as it came, ay
They hate you then they love you
They love you then they hate you again
