

Unleashed

Vicci Martinez

I keep coming up short
My last resort was my last resort

There's nothing up my sleeve
Sometimes it seems the cards are playing me

I've been holding it in
Like a trembling lip
You're so calm, baby
Button down, baby
So much work to be done
Brace the setting sun
Watch me now, baby
Run with me, baby

You've never seen this side of me
You've never seen me unleash, unleash, unleash
You've never seen this side of me
You've never seen me unleash, unleash, unleash

I keep closing my eyes
It's do or die, always do or die

I've been holding it in
Like a trembling lip
You're so calm, baby
Button down, baby
So much work to be done
Brace the setting sun
Watch me now, baby
Run with me, baby

You've never seen this side of me
You've never seen me unleash, unleash, unleash
You've never seen this side of me
You've never seen me unleash, unleash, unleash
You've never seen this side of me
You've never seen me unleash, unleash, unleash
You've never seen this side of me
You've never seen me unleash, unleash, unleash
