

Dopamine Junkie

Vicetone

I'm seeing the sky come crashing down
I'm fighting to get upright from the ground
Yeah, you won't find me in the ashes no more
Yeah we won't lose
Fall back to another place
Standin' tall, plant our flag
Here we gonna stay
Ready for the final battle
I won't stand down

You can't break me
Can't escape me
I feel it deep in my bones
My body is built from stone

Yeah we won't lose
Fall back to another place
Standin' tall, plant our flag
Here we gonna stay
Ready for the final battle
I won't stand down

You can't break me
Can't escape me
I feel it deep in my bones
My body is built from stone
