

# Elevate

Vicetone

Pull me in  
Hold me close  
Tell me everything you know

On the ground  
In the gray  
Show me how to elevate

You're the missing piece of heaven  
I'd give anything to know  
Wanna see a new dimension  
If I follow  
Will you never let go?

Lift me up  
I wanna be higher, higher  
Take me away  
Endless love  
We could get higher and higher  
Show me how to elevate

You're the red  
In my fire  
Pull the sun out of my sky  
I want more  
Every day  
Show me how to elevate

You're the missing piece of heaven  
I'd give anything to know  
Wanna see a new dimension  
If I follow  
Will you never let go?

Lift me up  
I wanna be higher, higher  
Take me away  
Endless love  
We could get higher and higher  
Show me how to elevate

Show me how to elevate  
We could get higher and higher  
Show me how to elevate

You're the missing piece of heaven  
I'd give anything to know  
Wanna see a new dimension  
If I follow  
Will you never let go?

Lift me up  
I wanna be higher, higher  
Take me away  
Endless love  
We could get higher and higher  
Show me how to elevate

Show me how to elevate

Lift me up  
I wanna be higher, higher  
Take me away  
Endless love  
We could get higher and higher  
Show me how to elevate
