Feels Like

Vicetone

It's like a one way ticket somewhere far away
It's like the calm in the eye of a hurricane
It's on the edge of heart beat fast and a heart break

I wanna take your hand
I wanna leave tonight
I don't know what this is
But if just feels right
Breathing you in so high
Think I might crash and die

Cause it feels like falling in love
Yeah it feels like falling in love
Yeah it feels like falling in love
Yeah it feels like falling in love
And it feels like I wanna jump
Baby every time, every touch
Cause it feels like falling in love
Yeah it feels like falling in love

It feels like falling in love
It feels like falling in love

Standin' still but It's all so fast
Think you can hold my world in just your hands
It's on the edge of a burning room and a slow dance

I wanna take your hand
And I wanna leave tonight
I don't know what this is
But if just feels right
Breathing you in so high
Think I might crash and die

Cause it feels like falling in love
Yeah it feels like falling in love
Yeah it feels like falling in love
Yeah it feels like falling in love
And it feels like I wanna jump
Baby every time, every touch
Cause it feels like falling in love
Yeah it feels like falling in love

It feels like falling in love
It feels like falling in love
