

Fix You

Vicetone

I could be the remedy
For your soul, for your soul
Call me your physician
I'll make you home, make you home

So let me fix you when you're low
Let me hold you when you're cold
Let me treat you right, let me treat you right
So let me fix you when you're low
Let me hold you when you're cold
Let me treat you right, let me treat you right
So let me fix you

Tell me when you're hurt
And I'll be there, I'll be there
And you've got things to keep
Let me care, let me care

So let me fix you when you're low
Let me hold you when you're cold
Let me treat you right, let me treat you right
So let me fix you when you're low
Let me hold you when you're cold
Let me treat you right, let me treat you right
So let me fix you when you're low
Let me hold you when you're cold
Let me treat you right, let me treat you right
So let me fix you when you're low
Let me hold you when you're cold
Let me treat you right, let me treat you right

Who you gonna call when you need that
Who you gonna call when you need that fix
Who you gonna call when you need that
Who you gonna call when you need that fix
Who you gonna call when you need that
Who you gonna call when you need that fix
Who you gonna call when you need that
Who you gonna call
So let me fix you

So let me fix you when you're low
Let me hold you when you're cold
Let me treat you right, let me treat you right
So let me fix you when you're low
Let me hold you when you're cold
Let me treat you right, let me treat you right
