

Kaleidoscope

Vicetone

I've watched the world seen it twist and turn
Reflected right before my eyes
Your lights they glow
What your heart don't show
The beauty that you keep inside

It's dark tonight
But our hearts they shine
Reflected from beneath our skin
The shapes and lines that we keep inside
Illuminate from deep within

Just shimmer, shimmer
The colors and the lights, they glimmer, glimmer
I look into your eyes, and see it so bright
See into the kaleidoscope

Just shimmer, shimmer
If only for tonight, they glimmer, glimmer
A prism in the night
Gets bigger, brighter
See into the kaleidoscope

It's dark tonight
But our hearts they shine
Reflected from beneath our skin
The shapes and lights that we keep inside
Illuminate from deep within

Just shimmer, shimmer
The colors and the lights, they glimmer, glimmer
I look into your eyes, and see it so bright
See into the kaleidoscope

Just shimmer, shimmer
If only for tonight, they glimmer, glimmer
A prism in the night
Gets bigger, brighter
See into the kaleidoscope

Just shimmer, shimmer
If only for tonight, they glimmer, glimmer
A prism in the night
Gets bigger, brighter
See into the kaleidoscope
