

# Outta My Mind

Vicetone

First we're blowing kisses  
Then we're throwing dishes  
It's just another night for us  
Wish I didn't need you  
Always doing redos  
But I'm addicted to your touch

We only love the highs 'cause the lows get lower then they should  
It's dangerous  
We're picking every fight 'cause we know that that's what makes it go  
od when we make up

Complicated, it's so wrong that it's right  
It's only fun when we've been crossing the line  
Make me crazy, but it's fine 'cause every night  
You blow me outta my mind  
Outta my mind

Love without the logic  
We get fuckin' toxic  
But no one does it like you do  
Always breaking it off  
Till we take our clothes off  
I can't live with or without you

We only love the highs 'cause the lows get lower then they should  
It's dangerous  
We're picking every fight 'cause we know that that's what makes it go  
od when we make up

Complicated, it's so wrong that it's right  
It's only fun when we've been crossing the line  
Make me crazy, but it's fine 'cause every night  
You blow me outta my mind  
Outta my mind

Outta my mind  
You blow me outta my mind
