

Something Strange

Vicetone

I looked over my shoulder
Saw you walking through the door
But you're not the same baby that I once knew
It's like I don't know you anymore

I feel a haze washing over you and me
I look for light inside the clouds
Sometimes the rain leaves as quickly as it stormed in
Looks like the worst is over now

Something strange hit me
Something strange hit me
Something strange hit me
I don't know you anymore
Something strange hit me
Something strange hit me
Something strange hit me
I don't know you anymore

Ooh, I don't know you anymore
Ooh, I don't know you anymore

It's always hard to say goodbye
To the one person that's on your mind
But I can't waste my time trying to make you see
You can't take back another lie

You broke your promise to me long ago
Though I tried my best to believe
Said your sorry ways would disappear
But now it's time for me to leave

Something strange hit me
Something strange hit me
Something strange hit me
I don't know you anymore
Something strange hit me
Something strange hit me
Something strange hit me
I don't know you anymore

Ooh, I don't know you anymore
Ooh, I don't know you anymore

(Something strange hit me)
(Something strange hit me)
(Something strange hit me)

Something strange hit me
Something strange hit me
Something strange hit me
I don't know you anymore
Something strange hit me
Something strange hit me
Something strange hit me
I don't know you anymore

Ooh, I don't know you anymore
Ooh, I don't know you anymore
