

## Cold Blooded

### Vicious Rumors

Every night, I lead a double life  
I'm a criminal mastermind  
Hide in plain sight, day and night  
I'm under their nose the entire time

If my story's told  
My secrets exposed  
Then I'll know they're getting close  
But they still don't know

I'm all in, no time for fear, they're on to me  
But I can't stay here, back and forth, time ticks down  
They're on to me but I can't be found

Cause I've lived through the bad times  
No penance for my crimes

I leave no trace, no trace behind  
I make a clean escape  
We'll never see eye to eye  
I'm a cold blooded bastard till the day I die

I'm all in, no time for fear, they're on to me  
But I can't stay here, back and forth, time ticks down  
They're on to me but I can't be found

If my story's told  
My secrets exposed  
Then I'll know they're getting close  
But they still don't know

I'm all in, no time for fear, they're on to me  
But I can't stay here, back and forth, time ticks down  
They're on to me but I can't be found

Cause I've lived through the bad times  
I know it's only crime but I like it

I'm under the gun a wanted felon  
I'm on to the next town  
No guilty conscience for what I do  
At the end of my blade I'll be seeing you
