

Collision Course Disaster

Vicious Rumors

I'm a freight train on derailed tracks
On a suicide run
There's no coming back from this
Collision course disaster
On a one way track

Can you feel my shock
My endless rotation
All the twisted flesh
The last complication

I'm afraid for my family
I'm afraid for my friends
But in the end we all must pay the toll Collision course disaster
On a one way track

Can you feel my shock
My endless rotation
You might feel lost
In the same situation

Destiny a choice you never have to make
In the end will you regret the hand you played

The train's full speed
And there's no slowing down
It won't take long till you hear the sound
The sound of destiny
Contemplate your soul
Collision course disaster
On the goddamned road

Can you feel my shock
My endless rotation
You double-crossed
My death fascination
