

## Dying Every Day

### Vicious Rumors

Empty cries fill the skies  
All across the land  
Lonely heart reaching out  
Bleeding hands in their hands

Dying, dying, dying every day  
Crying, crying as they fade away  
Dying, dying, dying every day  
Crying, crying, watch them fade away

Can you hear the children cry  
Cause I can hear them scream  
Ripped of all their hopes and dreams  
As we watch them bleed

Dying, dying, dying every day  
Crying, crying as they fade away  
Dying, dying, dying every day  
Crying, crying, watch them fade away

After all is said and done  
What lies ahead in tomorrow's world  
Lessons in life they never learned  
Will they have their turn?

Dying, dying, dying every day  
Crying, crying as they fade away  
Dying, dying, dying every day  
Crying, crying, watch them fade away
