

Inmortal

Vicious Rumors

Rolling thunder and acid rain
In my head, inside of my brain
Riding on overload, I'm insane
I'm at the top, at the top of my game

I'm the immortal fire and rage
I'm the immortal power and rain
You wont hear me till it's much too late
Watch me seal your fate

With me you never die
Let me reignite your life

Soaring the night, searching for souls
I'll take my blood from the young and the old
Stakes are high, sun turns night
Take my embrace and give up the fight

I'm the immortal fire and rage
I'm the immortal power and rain
You wont hear me till it's much too late
Watch me seal your fate

With me you never die
Let me reignite your life

Come back to life

I'm the immortal fire and rage
I'm the immortal power and rain
You wont hear me till it's much too late
Watch me seal your fate

With me you never die
Let me reignite your life
