

Minute to Kill

Vicious Rumors

Oh oh oh yeah
Why don't you go out your back door
It's your only chance to have
Run your life alone
As fast as you can
The road to the top
Is never what exists
A finger from the trigger
Of the age of suspense

Time runs out
Take to the sky
Don't look back
Run for your life
To the edge
Now is your chance don't sit still
Minute to kill
Time's on your side If you try

Out of our windows
We'll fight to the end
Let 'em grin
Corporate masturbation explodes in a jet
Who tossed the line
Is that the final thread
Watch it rule the world
No matter who's ahead

With all of them true
In our lights
Time's on your side if you will
Minute to kill
Time's on your side if you strife
Out of my way, now

Up to me to victory
You'll I never get compressed
Together we'll exterminate
The challenge of your best
I once watches you fight
You get no second chance
So put up or shut up or die

All of them true
In our lights
Time's on your side if you will
Minute to kill
Time's on your side if you strife
You took it to town
Took it to doubt
We're sorry your minute to kill
