Savior from Anger

Vicious Rumors

Hate is a killer in breeding frenzy
Growing faster becoming deadly.
Wake up, together. C'mon fight the beast:
Tyrant control in the Middle East

Poison, power. Driven by fury
Digital dictator, blackened expropriator
Deliver us from evil. Save the people
Contagion of hatred must be eliminated

Savior,
Save us from anger
Put to the test
Will we ever know?

The hunter, an animal without emotion.
Mechanical destruction, methodical corruption
Wake up, can't you see, the peace and harmony
Is there if you want it

Savior,
Save us from anger
Put to the test
Will we ever know?
