

Together We Unite

Vicious Rumors

Here we are tonight
We gather around again
To have a drink or two
And celebrate with friends
We stood the test of time
We gave it all we had

You can say we did it all

And now here tonight
I give it all to you
I thank you very much
cause you gave it right back too
Through all that was right
All that was wrong

Together we unite
Together we unite

We'll make the wrong seem right
If it takes all night

To the ones we lost
Their honor we hold dear
With pride and respect
In our hearts they're still here
Now we meet again
Back with our old friends

With the strength to carry on

The privilege is mine
I'll never turn away
My loyalty is true
I give it all to you
Thank you once again
My heavy metal friend

Together we unite
Together we unite
We'll make the wrong seem right
If it takes all night
Together we unite

This is not the end
Just another place in time
I'll see you all again
Together we unite
