Warball

Vicious Rumors

Synchronized the madness starts
Override we're close to launch
Never mind the civil truce
All hands down and warball's loose

Warball's on and we 're born again hard
The cycle never ends
A sea of death
Warball's on and we're born again hard
Time to say goodbye
Goodbye my friends

Situation def com 5
No-one gets out of here alive
the betrayal set in stone
A plague unleashed has found its home

Darkness and sadness Fills the air

Right back where we started Warball's armed and locked on
Contracts in blood Warball marches on

Warball's on and we 're born again hard
The cycle never ends
A sea of death
Warball's on and we're born again hard
Time to say goodbye
Goodbye my friends
