

Wheels Of Madness

Vicious Rumors

Flashed, phenomena, mysteries in sight
Unanswered, but still remains
From the outer world a presence was made
But secrecy sustains
The closer we get to the answers
the further away we go

(Chorus)

Wheels of madness turning
Will we ever learn
Wheels of madness turning
The candle burns

Abduction foretold, stories of madness
A history self portrayed
From the underground, a secret secured
Forever hidden away
The closer we get to the answers
The sooner we'll know it's a lie

(Chorus)

The blackouts, confusion a state of illusion
It all took place last night
No-one believes you, you must have been dreaming
Or, maybe you're out of your mind
the closer we get to the answers
the sooner we'll know it's a lie

(Chorus)

(Bridge)

Aeon years flash before your eyes
the future past, present systemized

(Chorus)
