

Daddy (Dying In NY)

Vickeblanka

It's getting cold outside
It's getting cold outside
It's getting cold outside
You better come inside

I said
Are you gonna be only one to give me a fun night
She said
I don't need to drink anymore, let's dive into the night
I said
I like the way you dress I can't take my eyes off ya
Nanananana no words needed, daddy
Feel good for yourself

Grab my reins now and crack me harder further so like
Stop doing feather, crack me harder further so like a dirty boy

This was gonna happen
This was gonna happen
This was gonna happen
I knew this was going

I said
Are you gonna be only one to give me a fun night
She said
I don't need to drink anymore, let's dive into the night
I said
I like the way you dress I can't take my eyes off ya
Nanananana no words needed, daddy
Feel good for yourself

Grab my reins now and crack me harder further so like
Stop doing feather, crack me harder further so like a dirty boy
Crack me harder further so like

Are you gonna be only one to give me a fun night
She said
I don't need to drink anymore, let's dive into the night
I said
I like the way you dress I can't take my eyes off ya
Nanananana no words needed, daddy
Feel good for yourself

Kiss and hug me right now
Come on baby now

Grab my reins now and crack me harder further so like

Kiss and hug me right now
Come on baby now

Stop doing feather crack me harder further so like a dirty boy

Kiss and hug me right now
Come on baby now

Nanananana no words needed, daddy

Crack me harder further so like

Kiss and hug me right now

Come on baby now
