

Heal Me

Vickeblanka

Hey Light me light me I'm fading out
Say to me we're the one body now
Lookin' my eyes I'm falling down
Keep falling down

Even I release my mind out
Though I hear the tunes to pound out
Anytime I'm bleeding out
Just heal it heal it heal this broken heart
Just call my name I'll answer
Through the long way out to transfer
Anytime I'm bleeding out
Just heal it heal it heal this broken heart

Run to where I've been along
Baby why should I be alone
Anytime I bleeding out
Just heal it heal it heal this broken heart

Shine me shine me I'm fading out
Say to me that we're the one body now
Lookin my eyes I'm falling down
Keep falling down
Anywhere I go
I find the shadow chasing me
So hard to hide, to run
Sparrow wings are on my back
No way I can do right now

Even I release my mind out
Though I hear the tunes to pound out
Anytime I'm bleeding out
Just heal it heal it heal this broken heart
Just call my name I'll answer
Through the long way out to transfer
Anytime I'm bleeding out
Just heal it heal it heal this broken heart

Run to where I've been along
Baby why should I be alone
Anytime I bleeding out
Just heal it heal it heal this broken heart

Even I release my mind out
Though I hear the tunes to pound out
