

## Smash (Right This Way)

Vickeblanka

For every silence  
They rambling underneath my skin, my fear

Just want defeat it  
Get blowing in the air  
I can, I do

Yes it is far cry way to go  
Don' t you feel that it's getting close  
Great big walls are not for hiding  
Let's get smash all down  
Remedy is always in your heart  
Tragedy is fall into the dark  
So the great walls are not for hiding  
Let us go right this way

My voice is broken  
Like birds cannot tweet while some eyes watch him  
This burning feeling  
I got no way to say  
Melt down my brave

Yes it is far cry way to go  
Don' t you feel that it's getting close  
Great big walls are not for hiding  
Let's get smash all down  
Remedy is always in your heart  
Tragedy is fall into the dark  
So the great walls are not for hiding  
Let us go right this way

When I get open the door  
When I sit this chair alone  
When I fall into the dawn  
It rises  
When I try to keep my head up  
When I break my neck to chin up  
It rises it rises

Yes it is far cry way to go

Don' t you feel that it's getting close  
Great big walls are not for hiding  
Let's get smash all down

It's always in your heart  
It's falling into the dark  
These walls are not for hiding  
Let us go right this way
