

## Times Beach

Victims Family

frollicking down the beach  
my tan is covered with spots  
they said we had to move out  
'cause of the chemical dump  
you can't make a home where the children get sick  
you can't make a life where the water is toxic  
dioxin doesn't make life very sweet  
just ask the folks who used to live at times beach  
ghost towns are made by the rich  
people are treated like trash  
everthings turning to dust  
echoes of what used to be
