I like your scent, I like your smile
You're so pretty whenever I look at you, I like it all
Even the warm sunlight
Keeps shining on you
Just looking at you makes me happy

Oh wow such a perfect combination
Can't express what a flower you are
I'll be your sun, only shining on you
So time to shine, I go blind just looking at you

By the biggest window in my heart
I'll put you in a pretty pot
You won't ever wither or twist
My flower 24 hours

When you smile (looks like a flower)
Without knowing (I'm pulled to you, butterfly high)
I keep lingering, what if I lose you?
I keep looking at you

Next to me (looks like a flower)
I want to keep you

Next to the dazzling you, I'll be there

Looks like a flower (like a flower)
Looks like a flower (like a flower)
I wanna lean on your shoulder and fall asleep

Looks like a flower (like a flower)
Looks like a flower (like a flower)
I want to hold your hand and walk every day

I like your scent, I like your smile
You're so pretty whenever I look at you, I like it all
Only you by my side all day
Only care for me, I'm looking at you all day
(Every day)

Woo I think of you, because of you
I changed my pattern
Each day is now random
Wherever I look, I fall for your charms
But it's alright because it's you

I look at you again and I fall for you again
Instead of a ring, I'll always be loveblind for you
All day, I think of you, every day
I think about you chu

When you smile (looks like a flower)
Without knowing (I'm pulled to you, butterfly high)
I keep lingering, what if I lose you?
I keep looking at you

Next to me (looks like a flower)
I want to keep you
Next to the dazzling you, I'll be there

Woo yeah, don't turn around
Because even your back is breathtaking
I wanna hold you so bad, I'm going crazy baby

When you smile (looks like a flower)
Without knowing (I'm pulled to you, butterfly high)
I keep lingering, what if I lose you?
I keep looking at you

Next to me (looks like a flower)
I want to keep you
Next to the dazzling you, I'll be there
