Brighter sunrise
Ooh woah, ooh woah, sunrise

Oh, sunrise, sunrise

You whispered to me, this will all pass
I thought everything would be alright

When I look back at the road I came on
Scars remain here and there
Times when I was nervous
Now we will see the light

The sunrise that I wanted to see with you
It will shine for us every day
The sunrise that I wanted to cherish with you
I won't lose it anymore
I'll only think about the good times
When things are hard
It will get brighter today, the sunrise
Brighter sunrise
Ooh woah, ooh woah, sunrise

You said you'd come back so I waited
It'll grow bigger, you always said

When I look back at the road I came on
The small memories make me tear
Times when I was nervous
Now we will see the light

The sunrise that I wanted to see with you
It will shine for us every day
The sunrise that I wanted to cherish with you
I won't lose it anymore
I'll only think about the good times
When things are hard
It will get brighter today, the sunrise
Brighter sunrise
Ooh woah, ooh woah, sunrise

Yeah we gonna shine bright
Like a sunrise
You just hold me tight
Babe it's gonna be alright
Where am I? I'm scared
My head hurts, don't turn around
You did a good job, you're doing a good job
Keep going
Trust me, you're doing a good job
Keep going
