

Broken

Victony

Ooh-ooh-ooh...

Girl, I am so broken
And my lungs been frozen
I can barely breathe right now
'Cause I feel these walls are closin'
Girl, I'm overdosin'
On my own emotions
Said, "I'm all you need right now"
But you left me in the open

Left me in the open
Left me in the open
Girl, I'm overdosin'
Left me in the open
Girl, you left me in the open
Left me in the open
Girl, I'm overdosin'
Girl, you left me in the open
Ah

I got plenty love
Girl, I promise you that I got plenty love
Don't you open up the window, you my antidote
Right now I just wanna let that Henny pour
Henny pour
Let it fuck up my system
Xanny and the Percs fuckin' up my system
Voices in my head not Christian
Suicidal thoughts but I'll never fall victim

Girl, I am so broken
And my lungs been frozen
I can barely breathe right now
'Cause I feel these walls are closin'
Girl, I'm overdosin'
On my own emotions
Said, "I'm all you need right now"
But you left me in the open
Left me in the open

Ah-ah-ah...
