

Never Find

Victor Thompson

Beauty, splendor none can hide
Fame of your goodness, everyone's talking
In your arms, oh Lord, we find true pleasure
With your love, no one remains the same
What you've done for me
How you care for me

I will never find another lover like you
I will never find another lover like you
I will never find another lover like you
I will never find another lover like you

I will never find another father like you
I will never find another father like you
I will never find another father like you
I will never find another father like you

Love so pure
Can't ignore
All the days
Of my life
I will walk
In your ways
Ways
Love so pure
Can't ignore
All the days
Of my life
I will walk
In your ways
Ways

What you've done for me
How you care for me
What you've done for me
How you care for me

I will never find another lover like you
I will never find another lover like you
I will never find
Another, another...
I will never find another lover like you
I will never find
Never find...
I will never find another father like you
I will never find another father like you
I will never find another father like you

I will never find another Savior like you
I will never find another Savior like you
I will never find a Savior like you
I will never find another Savior like you

What you've done for me
How you care for me
What you've done for me
How you care for me

What you've done for me
How you care for me...
