

Cherry Red

Victoria Duffield

Play, play, play it cool
Act, act, act a fool
I'ma do, I'ma do whatever I want to
See you seeing me, watching as I leave
Get the nerve, get the nerve, if you wanna ask me

You're not even looking in my eyes
All of my love's got you hypnotized
Play, play, play it cool
I know I got you
If you want it, come and get it
If you want it, ask me to
You, you
Like the way my cherry red lips move
Oooh, oooh
Like the way my cherry red lips move
When I'm talking that pillow talk
When I'm walking that proud girl walk
You know you, you
Like the way my cherry red lips move

Got the cherry red
On my lips
Wanna kiss
Wanna kiss
Got the cherry red
On my lips
Wanna kiss
Wanna kiss

Got my lipstick on, never coming off
Till it's all, till it's all, till it's all over you
Gotta leave my mark on your twisted heart
I'ma do, I'ma do whatever I want to

You're not even looking in my eyes
All of my love's got you hypnotized
Play, play, play it cool
I know I got you
If you want it, come and get it
If you want it, ask me to
You, you
Like the way my cherry red lips move
Oooh, oooh
Like the way my cherry red lips move
When I'm talking that pillow talk
When I'm walking that proud girl walk
You know you, you
Like the way my cherry red lips move
Got the cherry red
On my lips
Wanna kiss
Like the way my cherry red lips move

Play, play, play it cool
Wait for a day or two
To send a text message saying

"Girl I wanna play with you"
The cherry red got me thinking bout the way you move
I won't admit it though
'Cause that's the way your player do
Hold up, oh really
You know what I'm feeling
When we kiss, we floating
Your toes touch the ceiling
And we ain't coming down for a couple of minutes
Ask her how she knew she had my heart from the beginning
She say, she say

You, you
Like the way my cherry red lips move
Oooh, oooh
Like the way my cherry red lips move
When I'm talking that pillow talk
When I'm walking that proud girl walk
You know you, you
Like the way my cherry red lips move
Got the cherry red
On my lips
Wanna kiss
Like the way my cherry red lips move
Got the cherry red
On my lips
Wanna kiss
