

# Final Warning

Victoria Duffield

I see you  
You see me  
I think  
I know  
What's happening

You want to  
Talk to me  
But I'm afraid  
Of what you'll see

Gonna reel you in real close  
Gonna laugh at all your jokes  
Gonna make it see, so easy and natural  
Gonna get you hooked on me

It'll be too late to see

Than I

I might be wasting all your time  
It's a new day in the morning  
I can't help but  
Boy you're playing with fire

Can't you see this is a warning?  
Your final warning

Your final warning

I won't do, do this to you

Cause I feel the same way you do

But I know that  
Every time I get

This far I never follow through

Gonna reel you in real close  
Gonna laugh at all your jokes  
Gonna make it see, so easy and natural  
Gonna get you hooked on me

It'll be too late to see

Than I

I might be wasting all your time  
It's a new day in the morning  
I can't help but  
Boy you're playing with fire

Can't you see this is a warning?  
Your final warning

Your final warning

Every time I  
Change mi mind (mind)  
I don't know why  
I run away and hide

I might be wasting all your time  
It's a new day in the morning  
I can't help but  
Boy you're playing with fire

Can't you see this is a warning?  
Your final warning

Your final warning

Your final warning

Your final warning
