

You saying everything I like  
I could watch ya lips move all night  
Making me think you might  
Have the type of brain I like  
Promise I'ma make it rain for you  
Something like an ocean wave on you  
If you let me open up to you  
Kiss below the line

I wanna see what your head game like  
Do you know what you're doin'?  
Is your neck game tight?  
Do you know how to use it?  
Have a long conversation with me  
I talk back baby, we can get deep

I wanna see what your head game like  
Do you know what you're doing?  
Is your neck game tight?  
Do you know how to use it?  
Have a long conversation with me  
If you love swimming under the sea  
Then dive  
Dive  
Ooh, dive

I wanna see you rock the boat  
Back and forth  
Lick the beach  
Fuck the shore  
Make me scream  
All aboard  
Don't sink  
I'ma be  
Laid back  
Legs cracked  
Watch your face  
Entertain my lap  
If I like that  
We gone keep it on repeat

I just wanna see what your head game like  
Do you know what you're doing?  
Is your neck game tight?  
Do you know how to use it?  
Have a long conversation with me  
I talk back baby, we can get deep

I wanna see what your head game like  
Do you know what you're doing?  
Is your neck game tight?  
Do you know how to use it?  
Have a long conversation with me  
If you love swimming under the sea  
Then dive  
Dive  
Ooh, dive
