

# Ten New Friends

Victoria Monét

I broke up with you  
I'm on my own now  
Don't need your lovin', I love my own self  
All in my room the lights be low down  
I closed the door now, I be gettin' so loud

I got a meeting in my bedroom  
And I might've lost one  
But I got two hands that's gon' touch me till I'm through, hey

God damn, god damn  
Ten new friends  
I got 'em all on lock and it don't matter where I am  
'Cause they can make me feel like no one can  
The way they keep it raining  
I don't need no weather man  
God damn, god damn  
Ten new friends  
I got 'em all on lock and it don't matter where I am  
'Cause it won't ever be no one night stand  
They rock with me forever, any time I need a hand

They know just what I need  
And they don't ever tell me "No"  
I know they don't be cheatin' 'cause they got nowhere to go  
Oh mine, oh my, just me and my woes  
In the shower, in the mirror, even when I'm on the road

Hey, I got a meeting in my bedroom  
And I might've lost one  
But I got two hands that's gon' touch me till I'm through, hey

God damn, god damn  
Ten new friends  
I got 'em all on lock and it don't matter where I am  
'Cause they can make me feel like no one can  
The way they keep it raining  
I don't need no weather man  
God damn, god damn  
Ten new friends  
I got 'em all on lock and it don't matter where I am  
'Cause it won't ever be no one night stand  
They rock with me forever, any time I need a hand

Yeah, ten new friends  
So I don't need your... no more  
Ten new oh  
Yep, I lost one but I got ten  
More where that came from  
The last time I checked ten is better than one  
Thumbs up to that  
Middle finger in the air, I can... myself  
Yeah, thumbs up to that  
Middle finger in the air, I can... myself  
Middle finger in the air, I can... myself
