

Water Fall Out of Love

Victoria Monét

I know the truth, but I wanna hear it from you
It's so unattractive, watching you lie like you do
Didn't know what I was in for the day we met
Now I wanna take back all of the time I invest

So if you can hear me now
Then baby, baby I'll let you cry your eyes out
You should cry until you make a river deep enough to motherfuck
ing drown in
If you can hear me now
Cry your eyes out
So I can waterfall out of love

Loyal to someone that didn't play on my team
I'm sick to my stomach at how selfish you could be
The first time it happened, I shoulda left
Cause now I'm looking back at all of the years I regret

So if you can hear me now
Then baby, baby I'll let you cry your eyes out
You should cry until you make a river deep enough to motherfuck
ing drown in
If you can hear me now
Cry your eyes out
So I can waterfall out of love

Yeah, out of love
Cry
You should
Cry your eyes out
Cry
Yeah

If you can hear me now
Then baby, baby I'll let you cry your eyes out
You should cry until you make a river deep enough to motherfuck
ing drown in
If you can hear me now
Cry your eyes out
So I can waterfall out of love

Don't you let them get dry
Cry like I'm crying inside
Look what you did with your lies (lies)
