

We Are People

Victoria Monét

Hello hello, you know that we are people
We're moving on with feeling that we grew
I may be different from you, but cool
Hello hello, you know that we are people
We're moving on with feeling that we grew
I may be different from you, but cool
So kiss me that way, kiss me that way
Use all your human instincts for this one
I'll close my eyes and meet in the middle
We'll have it all, and we'll be the rich ones
So kiss me that way, kiss me that way
Kiss me that way, kiss me that way
I want it all
I want it all
I want it all
Know it all
Tell me all
We are people

Hello hello, you know that we are people
We're born to love and get what we long to
Those royal riches will all be yours soon
So kiss me that way, kiss me that way
Use all your human instincts for this one
Take all of me under the weather
No one can break us and no one can fix us!
Kiss me that way, kiss me that way
Kiss me that way, kiss me that way
I want it all
I want it all
I want it all
Know it all
Tell me all
We are people
