Cosmic Space Commando Base

Victorius

Hidden in the cosmic dark
Beyond the astral gates
In the silence long forgotten
A secret locked in time and space
The journey from the great unknown
Lead us to the twilight zone
Invisible for everyone
We strike by the power of the sun

Fallen warriors sworn to take revenge
Refuel the fire to fight and defend

Cosmic space commando base
Prepared to attack ready to invade
Cosmic space commando base
Our final mission will not fail

We command the shadow forces
Control the darkness inside
By the sign of the dragon
A new empire will rise
Fallen warriors sworn to take revenge
Refuel the fire to fight and defend

Cosmic space commando base
Prepared to attack ready to invade
Cosmic space commando base
Our final mission will not fail

Gather all your weapons
Now our time has come
Get out of the darkness
The invasion has begun!
