

## Dreamchaser

Victorius

Sometimes life is like a course  
We are bound by  
So blind to see that our time is running out  
In the big machinery called world  
We are their puppets  
Left cold and numb  
We are the slaves of our own

Wild - inspiring - hypnotizing  
Take the step - cross the boundaries

Dreamchaser we are  
Escape the nightmare  
The voice in your heart  
Dreamchaser light up the dark  
Light up the dark

Sometimes life seems to be a dream  
We have just to wake up  
Waiting for the call that  
We have to break the spell  
Only the reality knows there is no mercy  
Of you fight  
You can make your dreams come true

Deep in the dark we are hunting for the light  
Listen to your heart and we will burn  
We will burn the night

We are the light in the dark
