

Jurassic Jetfighters

Victorius

Laser bullets in the clouds
Fear and terror screaming loud
Bombs are falling down
Down to the battleground
Feel the fire, feel the wind
Seed a storm by metal wings
Tornadoes create destruction
Our fury lies within

Uprising
They're flying high above

Watch the sky
See them fly
Jurassic Jetfighters
For glory they die
Soaring high

Jurassic Jetfighters
Kings in the sky

Protect the air, land and the sea
Flying high metal machine
Railguns and rocket launchers
Will destroy the enemy
Firebirds are rising high
From the mountains to the sky
Can you hear the sirens call
And terminate them all

They're flying high above

Watch the sky
See them fly

For glory they die
