

# Mighty Magic Mammoth

Victorius

From the depths of the ice a beast will rise  
To new horizons of emerald skies  
With power and pride the beast will fight  
To conquer and to rule

Million years in icy cage  
Melt by a fire of cosmic rage  
A comet fall  
Heed the call  
Wake him from the winter age

Rising up  
He's breaking through the winter storm  
Far from the north  
The giant is reborn

Mighty Magic Mammoth  
Raging fire in the eyes of the  
Mighty Magic Mammoth  
Raise your flags and banners high for the  
Mighty Magic Mammoth  
Born to conquer and to rule  
So mysterious mighty and cool  
Magic Mammoth

Time to raise the tusk of steel  
Follow the signs of destiny  
The triumphant elephant  
Lead us to the promised land

Rising up  
He's breaking through the winter storm  
Far from the north  
The giant is reborn

Mighty Magic Mammoth  
Raging fire in the eyes of the  
Mighty Magic Mammoth  
Raise your flags and banners high for the  
Mighty Magic Mammoth  
Born to conquer and to rule  
So mysterious mighty and cool  
Magic Mammoth
