

Night of the Nuclear Ninja

Victorius

I was lost in the dark for so long
But now my time has come
As I got my power back
I'm ready to move on
With the force of a nuclear core
I stand strong, stand strong
And no one can stop me now

Chain reaction
My satisfaction
Glowing in the depths of the night
Cryonic
Atomic
Illuminate the darkest sky

Oho - Born from the fire
Oho - Into the night
Oho - Atomic desire
Nuclear ninja - Nuclear night

I was lost in the cold of the void
In the universe
Heard the call from afar
That brought me back to life
With the force of uranium
I stand tall, stand tall
And no one can bring me down

Chain reaction
My satisfaction
Glowing in the depths of the night
Cryonic
Atomic
Illuminate the darkest sky

Oho - Born from the fire
Oho - Into the night
Oho - Atomic desire
Nuclear ninja - Nuclear night

Chain reaction
My satisfaction
Glowing in the depths of the night
Radioactive
So attractive
Illuminate the darkest sky

Oho - Born from the fire
Oho - Into the night
Oho - Atomic desire
Nuclear ninja - Nuclear night

Oho - Born from the fire (Born from the fire)
Oho - Into the night (Into the night)
Oho - Atomic desire
Nuclear ninja - Nuclear night
