

# Ninjas Unite

Victorius

Vengeance is near  
We bring back the fear  
We storm the gates  
Full of anger and hate

No mercy, just war  
Your blood paint the walls  
Hear the deadly screams  
When we call to arms

We have come to fight for the crown  
Death to the king  
We take back the throne  
We have come to take our revenge  
To hell we were send

Ninjas unite  
Gather your steel  
We must arise - we'll never kneel  
A silent force will strike  
We're the legions of the night  
Ninjas unite!  
Now we arise  
Ready to strike - we're faster than light  
From out of space we've come  
To take this world by storm  
Ninjas unite

We break the chains  
We're free from the cage  
Warriors reborn  
We'll bring a new dawn

Shadows rising high  
Under the burning skies  
Your kingdoms will fall  
Revenge for us all
