

Nippon Knights

Victorius

Far in the land of the rising sun
Near the edge of the world, you'll find an island, it is called Japan
An island full of mystery, tradition and technology
Once ruled by emperors, ancient spirits, shinobi

Sailin' across the seven seas
To uncover a history
Of warriors that's fightin'
For freedom, wealth and harmony

Hear the call, it is time, all the soldiers unite
Leave all your broken tears behind
Raise our sword to the
Burning sky

Nippon knights, live for power and glory
Nippon knights, die with honor and steel
Nippon knights, ancient code of shinobi
Brave noble man made in Japan

The land has changed, city has grown
Big trouble in the streets of Tokyo
Enter a battle warrior, find yourself in future zone
Heroes of game industry have born a new century
Digital warriors fight a new reality

Hear the call, it is time, all the soldiers unite
Leave all your broken tears behind
Raise our sword to the
Burning sky

Nippon knights, live for power and glory
Nippon knights, die with honor and steel
Nippon knights, ancient code of shinobi
Brave noble man made in Japan

My Honda is hot, your car is not
My Nissan the best of them all
My Civic is here, the eclipse is near
My Skyline will never fall

Nippon knights, live for power and glory
Nippon knights, die with honor and steel
Nippon knights, ancient code of shinobi
Brave noble man made in Japan

Nippon knights, live for power and glory
Nippon knights, die with honor and steel
Nippon knights, ancient code of shinobi
Brave noble man made in Japan

Nippon knights
